

Amin Khan

Junior AI & Machine Learning Engineer

03118036997 · aminturabi594@gmail.com · linkedin.com/in/amin-khan-825086306

PROFILE

AI-focused Computer Science student with hands-on experience building NLP pipelines, ML-powered tools, and data-driven web applications. Passionate about turning research into real-world, production-ready systems.

EXPERIENCE

CodeClub Software house - Peshawar

2025

Machine Learning Intern

- Built and integrated ML modules into client-facing software, improving feature quality.
- Optimized backend components and resolved technical debt, cutting processing time by ~15%.
- Worked within SDLC practices: sprint planning, peer code review, and Git version control.

PROJECTS

AI Resume Screening & Ranking System

2026

- Designed an NLP pipeline using Sentence-BERT to semantically rank resumes against job descriptions.
- Built a real-time Streamlit web app for resume upload, parsing, and similarity scoring.
- Automated screening workflow — reducing manual review effort significantly.

EDUCATION

University of Engineering & Technology (UET), Mardan

2023 – Present

BSc Computer Science, AI Specialization | CGPA: 3.31

Quaid-e-Azam College, Mardan

2021 – 2023

FSc Computer Science

SKILLS AND TECHNOLOGIES

Languages	Python, SQL, C++, Dart
AI / ML	Scikit-learn, XGBoost, OpenCV, Pandas, NumPy
Frameworks	Streamlit, Flask, Flutter
Tools	Git, GitHub, VS Code, CVAT

LANGUAGES

English (Professional), Urdu (Native), Pashto (Native)
